

Refilwe Mathebe

BSc Honours in Quantity Surveying

Johannesburg, South Africa | 0780974909 | refilwemathebe09@gmail.com

PERSONAL STATEMENT

A Quantity Surveyor with experience engineering and construction project environments. Progressing from sales into assistant store management, I developed strong capabilities in team leadership, performance management, and stakeholder engagement, achieving consistent sales growth. I have successfully transferred these skills into my role as a Junior Quantity Surveyor, where I contribute to cost management, procurement coordination, and financial reporting across multiple projects. I bring a strong combination of commercial awareness, analytical thinking, and a proactive approach to delivering efficient, cost-effective project outcomes.

EDUCATION

University of the Witwatersrand

Johannesburg, South Africa

Bachelor of Science, (Honours) Quantity Surveying

2019 – 2022

- PG Honours Merit Award 2022 – Funding for academic excellence.
- Sub-Committee, Chartered Institute of Building, Wits society – responsible for assisting and managing all aspects of student society.
- Sub-Committee, Women's Property Network.

EXPERIENCE

Aurex Constructors (Sasol Projects)

Secunda (MP), South Africa

Junior Quantity Surveyor

June 2023 – June 2025

- Supported cost management across multiple engineering projects (mechanical, electrical and civils), initially working on projects valued at R3–R4 million and progressing to projects of up to R20 million.
- Worked with NEC and JBCC contracts.
- Prepared progress reports and financial statements using Excel and BuildSmart to support project cost control.
- Assisted with monthly invoices and project claims, supporting accurate billing and cash flow management.
- Monitored and recorded variation orders and additional client requests, ensuring cost adjustments for out-of-scope work.
- Supported procurement coordination, ensuring timely delivery of materials and services within project budgets.
- Assisted in identifying financial risks and mitigation strategies across active projects.
- Conducted site measurements and quantity verification to ensure accurate reporting and valuations.

Estimation and Cost

Johannesburg, South Africa

QS Tutor

March 2022 – Oct 2022

- conducted tutorials and provided academic support to students and enhanced students' understanding of cost estimation principles, improving average scores.
- Proactively engaging with lecturers and students to best meet the needs of students.
- Grades assignments and tests to help identify areas for improvement for students. Organized study sessions and workshops.

Sissyboy (BlueJeanTraders)

Johannesburg, South Africa

Store Manager

March 2021 – Dec 2022

- Supervised daily store operations and coordinated a team of 4 staff members, ensuring smooth workflow and high service standards.
- Delivered strong customer service and relationship management, contributing to 10–15% monthly sales growth.
- Analyzed product performance and pricing trends, reporting insights to management to support data-driven decisions.
- Managed cash handling, POS transactions, and daily reconciliations while maintaining accuracy and compliance with procedures.
- Monitored inventory and stock levels, supporting operational efficiency and reducing stock discrepancies.

KEY SKILLS

Analytical & Quantitative Skills

- Strong numerical reasoning and data analysis capabilities
- Cost modelling, variance analysis, and financial forecasting
- Root cause analysis and risk evaluation for project outcomes

Technical & Software Competence

- Clear working knowledge of BuildSmart and WinQS for data reporting
- MS Office Suite (Excel, Word, PowerPoint, Outlook)
- Familiarity with project management tools and documentation systems

Business & Risk Understanding

- Experience in identifying and mitigating cost-related risks in projects
- Strong business acumen gained through exposure to contract administration and procurement
- Understanding of JBCC and NEC Contracts

PROFESSIONAL SKILLS

- **Excellent Communication:** cultivated persuasive communication skills through active participation in dispute resolution assignments, consistently articulating compelling arguments and fostering constructive dialogue.
- **Negotiation:** deepened my negotiation acumen through selling Herbalife products, balancing client needs with business objectives resulting in amplified sales.
- **Cost Analysis & Financial Management:** Developed a strong analytical mindset through coursework and real-world project involvement, ensuring accurate cost estimations and effective budget allocation in construction projects.
- **Problem-Solving & Adaptability:** Strengthened my ability to navigate complex project challenges by working on diverse academic and professional assignments, swiftly adapting to evolving industry trends and project demands.
- **Teammplayer & Leadership:** Honed teamwork and leadership abilities through my role in university sub-committees, effectively coordinating group efforts, facilitating knowledge-sharing, and driving project success.

ADDITIONAL INFORMATION

Skills- Accuracy, Time management, Agile, Innovative, Adaptability, Team collaboration, client focused, communication skills, Research & strategy, Critical thinking, Public speaking

Interests – Cooking, Health & wellness, book collector and Journaling. **Languages** - English, Setswana (Home language), Sepedi and IsiZulu. **Certificates:**

- Entrepreneurship and Business Management (*University of Johannesburg*)
- Financial Literacy (*Udemy*)
- Data Analyst/specialist Desktop (*Udemy*)
- Microsoft Power BI Data Analyst (*Udemy*)
- Quantity Surveying and Building Estimation (*Udemy*)
